

Pool Policies

- *In the event of lightning the pool will be cleared for 20 minutes. Staff will then check the weather radio for report and check the lightning detector. The pool will be reopened in the case that the lightning dissipates. If the lightning continues the pool supervisors will contact the park office and determine whether they will wait another 20 minutes or close the pool. No refunds will be issued due to inclement weather.*
- *In the event of rain the pool will be cleared if the bottom drain is not visible. Staff will then check the weather radio for report. If the weather persists or is predicted to persist staff will contact the park office to determine if the pool is to be closed. No refunds will be issued due to inclement weather.*
- *In the event of temperatures that falling below 65 degrees with less than 10 people in the pool, staff will contact the park office to determine whether to remain open.*
- *In the event that the pool has maintained a participation number of less than 10 people for longer than an hour and a half the pool will be closed (the pool will start the hour and a half over at three o'clock if it was closed prior to that time).*
- *In the event of tornado watches or warnings in the area the pool will be cleared and the staff will gather patrons into the bathhouse. Staff will then contact the park office to determine whether the pool will remain open.*
- *In the event of pool closure relating to any of the policies listed above, if the pool closes prior to 3 o'clock the situation will be re-evaluated at that time to determine whether the pool will re-open.*
- *In the event of excrement in the pool the pool will close and remain closed for the following 10 hours.*
